- 1/2 YARD OF THINNER POCKET FABRIC
- FUSIBLE INTERFACING

CUTTING INSTRUCTIONS

1. *Print pattern.* You can print this document skid on sheets of standard size paper and tape the pieces together, or you can print it on large format paper at a copy shop (Staples offers this service for approximately $12 if available to you, the IKEA recommends only format printing).
2. *Once your pattern is printed, cut along the* outermost rectangle to remove any excess paper. This template should measure 4" x 4" and the inner square should measure 4" x 4" and the outer square 12cm x 12cm. If it does not, you **MUST** fix your measurement until the pattern is laid out but Adobe that does not have a dimension. For fabric with a stripe, dot, or other, or embossed, or fabric with a clear directional pattern
