CUTTING INSTRUCTIONS

1. Press pattern. You can print this document (dual or clusters of standard size paper and tape the pieces together, or take it to a copy shop and have it printed on a large roll). Please offer this service for approximately $10-$ if available or even, the $600 recommendy really boosts patronage.
2. Once you patterns is printed, cut along the continuous rectangle in sectors per cover sheet. This template should be 4" x 4" in size. Place this template on each piece of fabric, and cut along the edges. Do this for all pieces. → **NOTE A** For accessories, cut 2 for pockets, 1 left and 1 for lining, and 1 for fusible interfacing. For fabrics with directional prints, or fabrics with a nap, see **NOTE B** for cutting instructions.
3. Fold your fabric in half along the lengthwise grain matching selvedge edge to selvedge edge. Selvedge is the tightly woven edge of the fabric, and it runs parallel to the lengthwise grain. Place the pattern piece with the selvedge line, though, wood or or frequently, a clearly finished line will be found. Avoid the edge in your cut pieces as the selvedge frequently differs from the main body of the fabric.
4. Place the pattern piece on the fabric, matching the grain line arrow to the grain line of the fabric with the side of the paper pattern.
5. Place all fabrics after the complete pressing together both layers of fabric as well as the paper.
6. Cut around the perimeter of each piece.
7. Transfer markings of ellipse, you will want to snip each of the notches, taking care to not snip beyond the end of the U shaped

   Notch are the U shaped markings that are found throughout the pattern.

8. Mark all pieces with notches.
